Dear Friend,

If you've ever wanted to simply convince people that you know what they should do **and have them do it** then this will be the most important message you ever read.

My name is Clifford Mee, and until very recently my powers of persuasion were pretty ordinary.

I had a love/hate relationship with trying to sell things ... some days I would close like a pro ... and the next afternoon my sales would go all to hell.

There have been times when my co-workers hung on my every word... and the next week my ideas would be treated with contempt.

Negotiating a business deal ... or even a simple car purchase, until recently was unpredictable, unreliable, and resulted in gut-burning anxiety.

Win some ... lose some.

Doesn't that drive you nuts too?

I had no consistency at all, even after 22 years of professional experience and the finest conventional training in sales, marketing, negotiation and persuasion.

Between what I spent myself, and what my employers have dropped on trainings I'd estimate I've spent thirty-seven thousand dollars paying the “persuasion pro's” to do their dog and pony shows.

Fortunately, I'm The Kind of Guy Who's Obsessed With Having People Obey Me

Igor Ledochowski

Lawyer, Master Hypnotist, Coach, Mentor, Martial Artist & Creator of Conversational Hypnosis

From January 1998 to April 2001 Igor Ledochowski worked as a lawyer with the leading international global law firm Linklaters & Alliance. Igor has advised clients in the **leading banks and financial institutions** such as Goldman Sachs, Merrill Lynch and J P Morgan.

In April 2001, Igor Ledochowski founded the Training and Executive Coaching Consultancy ILEDO. Incorporating the principles of NLP and using specialized hypnotic techniques Igor trained groups and individually coached business leaders in leading **international organizations**, such as Grant Thornton

That's how I ran into Igor Ledochowski. And my life instantly changed forever.

In a few short weeks after listening to Igor's simple teachings

- I learned how to read every client like an open book. I knew what they were thinking before they did. I could “adjust their attitudes” with a few simple commands.
- I learned how to see if someone was going to say no and how to change that no into a yes.
- I learned how to train people to respond to the tones of my voice automatically and without question so that they would willingly do my bidding time after time.
- Plus --- incredibly --- unexpectedly ---

My Relationships Improved, I Had Instant Rapport on Demand, And Everyone Treated Me With New Respect

And in these short months it's just been getting better and better.

I've become absolutely fearless in my communication, going after every goal as if I had magical powers.

But it's not magic at all.

You see, what I learned from Igor had almost nothing to do with me ... and everything to do with the amazing ability to use hypnosis in everyday conversations.

He calls it **Conversational Hypnosis**:

How to quickly and easily put people under

and Proctor & Gamble, to accelerate change and improve their performance in the workplace.

In January 2004 Igor set up the Curious Company, a partnership with 3 other highly talented coaches. Together they deliver training programs designed to **teach corporate executives powerful tools** for the workplace.

Igor runs a hypnotherapy clinic in central London which he shares with another talented hypnotherapist. At the clinic he has worked with a variety of people from those wanting to stop smoking to people with phobias.

Igor also runs specialized Master classes, training hypnotherapists in advanced skills, for professional hypnotherapists' bodies like the London College of Clinical Hypnosis or the Hypnotherapy Association. Igor is a full member of the British Society of Clinical Hypnosis, the Association for Neuro Linguistic Programming and the International Network for Humanistic Neuro Linguistic Programming.

He has written several books and recorded several audio products. His

book “The Deep Trance Training Manual Vol. 1” has been received with much enthusiasm in the hypnotic community, instantly selling out of the first print run and going on to be a **best seller** amongst hypnosis books.

Other Achievements: In 2004 Igor was appointed the personal mentor for mind mastery to the UK 's top leadership expert David Taylor (author of the **internationally best selling** “Naked Leader” series of books).

Igor has been training in the martial arts since the age of 14. At 18 he started training in a highly practical self defence system called Kenpo (translates as “the

your spell and get them to do what you want.

Igor got all his ideas 15 years ago when he saw a rebel psychiatrist in a wheel chair speaking to a bunch of doctors, psychologists, and therapists.

Just talking to them.

Yeah. Right.

Igor actually felt sorry for the paralyzed old coot... until that room full of skeptical professionals started to do **exactly** what he told them to do.

You see, he had used hypnosis ... right in a conversation ... to make those tough-minded subjects laugh, scratch, stand up, and sit down on command.

The elderly heretic was named Milton Erickson. He was the greatest hypnotist of all time.

What made his hypnosis so powerful was that he had spent almost 60 years learning to hypnotize his subjects without them knowing it.... and hypnotizing them inside of a normal-seeming conversation.

You may ask, “Why would a psychiatrist spend his entire life learning how to hypnotize people without them knowing it ... by using normal conversation in hypnotic ways?”

It's because....

It Was Illegal For Doctors To Use Hypnosis

Milton H Erickson, MD, PhD.
1901-1980 Psychiatrist,
Psychologist, Generally
Acknowledged As The World's
Greatest Hypnotist

Even though Milton Erickson had been a college professor, doctor, and psychiatrist.... it was still against the American Medical Association rules and regulations to use hypnosis with patients.

Everyone knew that hypnosis had amazing power. Erickson thought that it was just this power that made the establishment ban its use.

So Milton Erickson spent a lifetime perfecting the skills that allowed him to take hypnotic control of his

Law of the Fist’). He received his black belt in record time and opened his first Kenpo school at Exeter University. He later started a **successful Kenpo school** in central London, which he continues to run. Igor has taken several senior students through to black belt level.

Dr. Erickson is generally acknowledged to have been the worlds leading practitioner of medical and psychological hypnosis. His writings on hypnosis are the final word on techniques of inducing trance, experiments that explore the outer limits of hypnotic experience, and many investigations in the art and science of conversational hypnosis.

Dr. Erickson is both a psychiatrist and psychologist. He received a medical degree and a Master's degree at the same time. He was...

patients by just “talking to them”.

It was the only way he could keep his license to practice medicine!

There are literally thousands of stories of what Dr. Erickson accomplished through conversational hypnosis, but I'd like to tell you just one.

How Conversational Hypnosis Saved A Maverick Doctors License And Changed The USA's Laws About Hypnosis

In 1953 the American Medical Association caught wind of the fact that the renegade psychiatrist Dr. Erickson was doing hypnosis with his patients.

They scheduled a “disciplinary hearing” in New York where he was to be stripped of his license, his livelihood, and send home in shame.

Milton Erickson knew that the president of the AMA lived in Los Angeles .

He found out when the president would be flying to New York , and he arranged to fly out with both the president and another board member.

The atmosphere was strained and difficult for the first moments of the boarding and the flight.

But soon the two board members started to have strong feelings of rapport and respect for Dr. Erickson.

And the more he “talked” in that special way of his his companions got more comfortable and more relaxed.... and more relaxed..... and still more comfortable ... until...

Erickson and his foundation believed, and still believe that only physicians, dentists and psychologists should be allowed to use hypnosis. The Ericksonian Foundation will not let anyone who's not a licensed member of those professions join the society, attend their meetings, buy or borrow audio tapes from their extensive library, or even publicly practice hypnosis.

Erickson believed that the techniques he discovered and refined were **"too powerful" to be in the hands of the ordinary layman**".

The **Conversational Hypnosis Home Study Course** powerfully breaks the embargo on these techniques that the Ericksonian Foundation wants to keep hidden.

The Two Grey-haired AMA Officials Just Listened With Glazed Eyes And Agreed To Everything...

By the time the 3 doctors got off the plane, they were all fast friends.

The hearing, instead of being a professional massacre, had all the charges dropped against Dr. Milton Erickson.

The Very Next Year, The AMA Reversed Itself And Allowed Doctors To Use Hypnosis!

That's the power of Conversational Hypnosis .

And when you learn the same simple but powerful techniques, you will be able to put people under your spell, and easily get them to do what you want too!

Anyways, there is a very good reason why I am telling you all this.

You see, Milton Erickson refused to teach hypnosis to anyone who was not a licensed doctor or psychologist.

Now that he's passed away, the Erickson Foundation is still trying to hoard away the deepest and most powerful secrets of Conversational Hypnosis.

You cannot even see the contents of their library unless you are a doctor or psychologist.

There are people who claim to teach Erickson's methods...

....but only one man has cracked the code to using conversational hypnosis in a sales situation...

...or on the job....

The Official Position Of The Ericksonian Foundation Is That You Cannot Learn Or Practice Standard Hypnosis Unless You Are A Doctor, Dentist, Or Licensed Psychologist.

...or persuading friends and family members....

And that man is Igor Ledochowski.

For the last 8 years, the only way to learn the special techniques of **Conversational Hypnosis** was to hire Igor personally, and he never came cheap.

In fact, he's been charging \$475.00 an hour, with a minimum of 10 lessons in a package

– meaning it would cost you \$4750.00 just in fees to learn these powerful persuasion techniques.

That is, if you could nail him down for an appointment.

He is, perhaps ...

The Most Sought After Hypnosis Instructor In The World

And Igor would have gone on giving only private lessons and seminars...

...until I convinced him of a very simple economic fact

If he would allow me to turn his private, highly-restricted teachings into a simple, easy, and well-structured home study course ... then we could sell these powerful persuasion secrets to people for a slight fraction of his fee.

I knew that within a year's time, so many people worldwide would buy the home study course that Igor would never have to give another private conversational hypnosis lesson again.

To allow you to learn Conversational Hypnosis would be unthinkable for this organization...

But see what this senior member of the Ericksonian Foundation says about **Igor Ledochowski's groundbreaking work...**

"Even after 40 years of studying hypnosis, I am impressed with Ledochowski's contribution to the field."

He could actually make a better living by charging “spare change” while enlarging his audience, than he could by teaching the few wealthy persuasion experts each month for his “Rolls-Royce and Rolex” fees.

And Igor agreed sort of.

Actually, he made me a deal. We could “test” this low-cost offer in a few places, and if it did

well, the deal was on.

If it didn't, however....

"12 months ago I was working for one of the **top investment banks in the world**. The work was good, the pay was exceptional, I had everything I could ever aspire to as a young man... but there was something missing - I wasn't happy.

"You see something inside me knew that I wanted to **do something else** with my life. Something grander. But I kept locking those thoughts away: after all I had everything a man could want, right?

"Wrong!"

"Inside me, something was brewing, only I didn't **know how to release it**. So my energy levels gradually sank. I started to feel bad in the mornings waking up. I spent my days trying to "fake" not being tired and grumpy!

"**Monday mornings were the worst**. I started wishing my week away, looking forward to the peace and quiet of the weekend. But then I had a realization: **I was wishing away 5/7 of my life!**

"I realized that I was wishing away 40 years of my life!

"**But then I discovered Igor and I realized all I needed was the tools for creating the lifestyle I wanted most.**

"I started to apply everything I learned. My improvement sky-rocketed and now I am living the lifestyle I always wanted!

"Now I literally jump out of bed every morning, excited to see what the day ahead has to offer. In fact I am more excited on days in which I get to do some "work" now, than on my "days off" - that is how much my life has changed!"

"I Now Have A Great Relationship With A Beautiful, Loving Woman"

"When I first came to London from New Zealand I got into the whole party scene. It was fun for a while, but one day I woke up and realized that that scene was not healthy for me. My life needed to go in a different direction.

"So I spent the last six years developing myself. I have tried everything out there: Goal Setting, Positive Thinking, Eastern Philosophy - I even took up Tai Chi. All these things really helped me change parts of my life and make them more positive.

"But there were things still missing from my life. Its ironic: as a Kiwi I'm naturally a friendly and chatty guy. The problem is that I didn't used to "get" people. **Empathy to me was just a curious concept.**

"So I never had really "intimate" relationships. It was frustrating for my girlfriends that I couldn't see the world through their eyes.

"Then I stumbled across Igor's course...I learned loads of things. The strange thing is that I could feel things happen in the back of my mind. It was as though someone was lifting invisible barriers from my mind, leaving me **feeling more free and easy**.

"The really crazy thing is what happened after...I found that somehow I was getting much better rapport with people. **Work colleagues seemed to be nicer to me**. My friends seemed to be opening up to me more.

"But the best thing is that **I now have a great relationship with a beautiful, loving woman**. She's always telling me that I am one of the few people that actually "gets" her!"

"I wanted to have lots of friends, be the center of attention and show people that there was more to me than computer code and technical jargon.

"But I didn't know how.

"I remember seeing a Hypnosis show one day and thinking: 'If only I could do something like that - I wouldn't have to feel this awkward anymore!'

"I looked at how confident and charismatic the hypnotist was. **I wished I could be like him..**

"Then I came across you. And **boy did it change my life!**

"**I more than had my moneys worth!** - I learned the one thing I wanted most in my life: how to make friends and get complete strangers to like me.

"I was so excited!"

"Then, things just got better...**I learned how to hypnotize people.** I was doing it for real just like the guy in the show!!

"A few weeks later, I was out meeting my (NEW!!) friends. I told them that I was planning to change jobs and become a hypnotherapist.

"They just laughed at me when I told them I could "cure" a phobia in 5 minutes."

"So I asked about until I found a woman who had Vertigo - a phobia of heights. I asked her if she wanted to be my demonstration client and she agreed.

"I brought her back to my friends and **5 minutes later they just stared in amazement as my phobia client calmly looked out the window - on the 40th floor!"**

"Word spread and now I have a busy hypnotherapy clinic in Central London, doing a job I really love.

"I'm Getting Amazing Results!"

Hi Cliff,

Boy are you in trouble...

My local postman delivered my "Power Of Conversational Hypnosis" package yesterday morning just before 9:00 am.

[Please note the physical version is not currently available and used to cost \$697!]

He looked at the smile on my face as I opened it and said, "You were really looking forward to seeing this package then?"

"I certainly was" I replied...

It's now 3:30 pm. I have spent over 30 hours devouring all the information. I've listened to every single sound track, I've made tons of notes, I've practiced my new skills on the telephone, I've enjoyed conversations with my friends, my neighbours and with my colleagues.

I'm getting amazing results!

The postman has stopped leaving my garden gate open, I've persuaded a young lady to join me for a meal this evening, I got a discount on the cost of servicing my car.

But I'm behind schedule and it's all your fault!

I'm just going to have to persuade a couple of people to help me to catch up over the weekend... and that's likely to be **so much easier now that I have a powerful new set of skills to help me to achieve my objectives.**

Thanks

John

P.S. I haven't even begun to use my new skills in

coaching my clients yet!
